

AJA

AJA is a square diffuser with two circular air outlets. It is available in three sizes: 200x200, 300x300, and 400x400 mm. The diffuser is made of aluminum and is suitable for use in ceiling-mounted air conditioning systems. It features a circular grille with a central circular opening and radial vanes. The diffuser is adjustable, allowing for a deflection angle of $\pm 30^\circ$ or 360° . The AJA diffuser is a high-quality, durable, and reliable product that is suitable for use in a wide range of applications.
