

HILTON - SAO PAULO MORUMBI

In the eastern part of Sao Paulo, in the Morumbi neighborhood, is one of the largest mixed business/residential areas in Brazil. Some of it is the "Cenu Business Complex", which is also the tallest building. In it is the Hilton Sao Paulo Morumbi. It has 485 luxurious, spacious rooms, including 88 executive rooms and 25 suites, distributed over 32 floors.

TROX do Brasil supplies most of the components and units for the central air conditioning and air conditioning system of the Hilton Hotel in Sao Paulo Morumbi. Among the products they supply are TROX air diffusers, which are available in different versions. They were arranged in co-operation with well-known designers and architects so that they underscore the atmosphere of each room.

They also correspond to the high air conditioning engineering and acoustic demands on air diffusers. By using TROX products, the best in comfort in every respect is provided to hotel guests and their well-being is substantially increased.

Thanks to the use of TROX components, a reliable system of the highest quality is provided to the customer. The modern design of the air diffusers underscores the immaculate effect of the hotel on its guests.
