TROX LIFE - Air + pharma

Pharmaceutical industry (BPI) is facing a major challenge: 600 new drugs are expected to be launched in 2018, compared to 500 in 2017. This increase in drug launches is driving the need for cleanroom technology. In 2018, 223 cleanroom projects were planned, up from 200 in 2017. TROX life magazine
