

ATTACHMENTS

FOR THE IMPROVEMENT AND EXTENSION OF THE RANGE OF APPLICATIONS

Attachments for low-leakage steel doors and inspection access doors to meet 5 demanding requirements and extend the range of applications

- Cylinder rim lock to lock the door using either a rotary knob or a key
- Mortice lock, ready to accommodate a profile cylinder, to lock the door
- Double skin inspection window
- Pressure relief valve for pressure equalisation between the rooms on either side of the door; allows the door to be opened without much effort
- Double lever locking device with removable front locking lever; without the front lever the door cannot be opened from the outside
- Any combination of attachments for steel doors

Arrangement of attachments for single leaf low-leakage steel door of Type ST
